RAISING OF CHILDREN.

EXPERIENCE has demonstrated the fact, that the giving of the Vermilage to children frequently will not one cause them to grow, but enjoy better health, especially if panny, whether worms are always discharged or not. When suphate of quantum was first introduced as a medicine, it was only used to cure fever, but is now given, and with advantage, in many discusses. To some extent this will be the case with the Versalfage. With my facilities in business, I shall be enabled, in tuture, to put up the article in large battles, and cheaper, as well as to continue it in the usual size.

Continue it in the usual cize.

Not long since, quite a stout lad, twelve or four teen years od, was complaining of herdache, duliness, want of appetite, &c., and, as the V-ranflage had helped the smaler children so much, his father, as he told me himsef, concluded to give him the medicine, which he did, and the day following, about

thirty large worms were expeled.

In a family of my acquintance, who keep my Vermitage in large sized bottles, it was mistaken at night for caster of , and a arge tablespoonful given to a negro boy twelve or fourteen years od, without the least desterious effects, he next

day he discharged more than twenty argo worms.
he following statement is from Judge Holt:
Sm -- Your advice to give the Vermifage to chidren whenever they seem to be anguid or drooping, we find excelost. In twenty or thirty cases is my family it has been given sometimes causing a large quantity of worms to be expeled, and at other times few or none. I have marked the fact, that when it was given, chidren were soon relieved whether worms were aways discharged or not, be-

sides becoming more healthy afterwards.

In my neighborhood your Vermifuge has been much used—at one house I found three children sick, two with a high fever and the other had a dark or livid appearance, with difficult breathing and seemed to be at the point of death. othern all we gave the medicine, and soon all began to discharge worms, in one or two cases enormously. I learned, and were soon well. I saw, by request, at another house, a child two years old, very much depressed, indeed, which was soon relieved by taking the Ver-mifuge, and discharged a large number of worms. The Anodyne Cough Drops have very often been given for coughs, colds, and in the measles, with a

given for caughs, country, happy effect in my family.
Yours, &c.,
WILLIAM HOLF.
